

Socratic Seminar

Name: _____

As we continue through the text, you will need to prepare your presentations **before you engage in the group discussion**. Remember: If you are in the inner circle, you will be responsible for active discussion. If you are a coach (the outer circle), you are just as responsible for this material as your partner may rely on you for textual support.

As you read, you'll be responsible for finding quotations from the text that you think will help you answer the questions. You should do your best to explain why that quotation might be significant. Prepare at least one quotation explanation for each question and be ready to share these with rest of us.

Chapter Three Seminar Questions

1. What struggles does George face?
2. What advantages do Candy and his dog and Lennie and George have over other characters in the text?
3. How does Steinbeck present the character of Slim? What role does he play with George?
4. How and why does Carlson get his way?
5. What makes "the dream" seem more attainable when we hear about it this time?
